EMAIL: **SKUK@SK-EUROPE.COM**

### › HOW WE ALREADY HELP

The printing industry is under pressure to reduce its carbon footprint due to intensive energy usage, high chemical use and associated waste.

Our services create a safe working environment and provide the green credentials, which are essential to meeting both client and legislative requirements.

We work with our clients to reduce VOCs and our machines are designed to use less energy, while reducing the amount of solvent used through recycling.

Our comprehensive range of specialist cleaning equipment and industry expertise means we can provide the right equipment and service regime for all print processes.

### › GREEN CREDENTIALS

We can advise you on best environmental practice, ensure all print waste is taken to the highest level on the waste hierarchy (reduce, re-use, recycle) and provide you with evidence of sustainable credentials. All of our machines are re-used, thinner is recycled and we offer effective aqueous solutions to reduce VOCs which creates a safer work environment.

### › IMPROVED PRINT QUALITY

Our aqueous and solvent based cleaning solutions deal effectively with oil based inks, offset UV inks, thinner based inks and aqueous based inks. Our comprehensive cleaning service helps you to guarantee perfect print production every time.

## › TYPICAL APPLICATIONS WHERE WE HELP

### › PARTS WASHING

- WE TAKE CARE TO PROVIDE YOU WITH THE BEST MACHINE AND CLEANING SOLUTION FOR YOUR SPECIFIC NEEDS.

### › WASTE MANAGEMENT

- WIPES
- EXHAUSTED INKS, SOLVENTS & ABSORBENTS
- CANS, TINS, PLASTIC CONTAINERS
- PRINTING LIQUIDS

### › CONSUMABLES

- WIPES
- SOLVENTS SALES
- ABSORBENTS
- SPILL PLATFORMS

### › KLEENWIPE

- HIGHLY ABSORBENT INDUSTRIAL STRENGTH RE-USABLE WIPES
- SPECIFICALLY FOR THE PRINT INDUSTRY
- SUPPLY, WASH AND RE-SUPPLY SERVICE

### › A COMPREHENSIVE PARTS WASHING RANGE FOR ALL PRINT PROCESSES

TYPE OF INK	177, 307	340, 440	M810	AAQ	MAQ
Aqueous based	-	-	-	✓	✓
