## › SERVICE CONTRACT

### › Why a Safetykleen Service?

Safetykleen has over 40 years experience, with an unbeatable reputation in parts washing machines and services, providing our customers with peace of mind. With our contracted service there is no need to worry about purchasing solvents and detergents, organising waste removal or associated paperwork.

› **Fresh fluid supply at service intervals to suit your exact needs**

› **All waste labelling and legal paperwork is managed by us**

› **We take waste away for recycling and reuse**

## 19 UK & IRELAND BRANCHES

### Considerations

### Benefits of our Contracted service

! Management time, disruption associated with coordinating multiple suppliers for parts washing, spray equipment cleaning, waste oil, collections and waste management	✓ Fast, responsive, localised service delivered by a nationwide network of branches - one supplier and minimum disruption
! Un-budgeted costs: management of cleaning equipment and waste services	✓ One simple fixed monthly bill - transparent and manageable costs
! Not all detergents are suitable for all types of contamination, and some can have adverse reactions with certain substrates – time will be spent researching and testing before suppliers can be selected	✓ With over 40 years as market leader and more than 100,000 installations Safetykleen are able to guide and assist you to make sure that your cleaning requirements are met first time and every time.
! Storage of chemicals/solvents	✓ Safetykleen will not leave chemistry on your site for you to store outside of what is required for use in your machines.
! Preparation Time – if buying your own one of your operators will need to dilute and prepare the fluid ready for use	✓ Detergents supplied ready for use, no time needed to mix and prepare solutions
! Administration cost	✓ Scheduled servicing reduces administration as no need to contact us to coordinate the work, we will work to your schedule
! Maintenance, repair, downtime, spare parts and replacement fluids	✓ Regular servicing of your machine means breakdowns are less likely to occur, therefore minimising the impact of downtime
! Legal waste storage requirements	✓ We provide all of the equipment required for us to legally remove your waste at the time of service, you don't need to store anything we will bring it with us when we visit
! Dealing with waste build up	✓ Pre-scheduled collections mean waste is regularly removed at each scheduled service
! Legal waste removal and waste management compliance costs	✓ All compliance paperwork, labelling and waste reporting and environmental charges - included in the price
! Keeping up-to-date with applicable waste and environmental legislation	✓ Waste Management in-line with the Waste Framework Directive Legislation updates + assistance towards environmental accreditation ISO14001
